🚀 Getting Started

System Requirements

- **Browser**: Chrome 90+, Firefox 88+, Safari 14+, Edge 90+
- **Internet**: Stable internet connection
- **Screen Resolution**: 1024x768 minimum (1920x1080 recommended)

First Time Setup

1. **Access the Platform**: Navigate to your Syncner URL
2. **Create Account**: Click "Register" and fill in your details
3. **Select Career Track**: Choose your learning path
4. **Complete Profile**: Add additional information
5. **Start Learning**: Begin your educational journey

Login Process

1. Go to the login page
2. Enter your email and password
3. Click "Sign In"
4. You'll be redirected to your dashboard

🎓 Student Guide

Dashboard Overview

Your student dashboard provides:

- **Progress Overview**: Current level and completion percentage
- **Learning Path**: Visual representation of your journey
- **Recent Activity**: Latest learning activities
- **Achievements**: Badges and milestones earned
- **Quick Actions**: Easy access to common tasks

Learning Journey

1. Understanding Levels

Each level contains three sections:

- **Learn**: Reading materials, videos, and tutorials
- **Test**: Quizzes and assessments
- **Exercise**: Hands-on projects and assignments

2. Progress Through Learn Section

1. **Access Learning Materials**:
    - Click on a level from your dashboard
    - Select the "Learn" tab
    - Browse available materials
2. **Track Your Progress**:
    - Materials are marked as completed when accessed
    - Time spent is automatically tracked
    - Progress bar shows completion percentage
3. **Best Practices**:
    - Read materials thoroughly
    - Take notes for reference
    - Complete materials in order
    - Use external links for additional learning

3. Taking Tests

1. **Test Access**:
    - Tests unlock after completing Learn section
    - Click "Take Test" when available
    - Read instructions carefully
2. **Test Process**:
    - Answer all questions
    - Review your answers before submitting
    - Submit when confident in your responses
3. **Test Results**:
    - Immediate feedback on completion
    - Score displayed with correct answers
    - Retake options available (if enabled)
4. **Retaking Tests**:

- Check retake policy in test instructions
- Previous attempts are recorded
- Best score may be used for progression

4. Completing Exercises

1. **Exercise Access**:
   - Exercises unlock after Test completion
   - Review requirements and resources
   - Plan your approach
2. **Submission Process**:
   - Complete the exercise as instructed
   - Prepare submission materials
   - Upload files or provide links
   - Add any required documentation
3. **Exercise Review**:
   - Staff will review your submission
   - Feedback provided within 48 hours
   - Resubmission allowed if needed

Portfolio Management

1. Viewing Your Portfolio

1. Navigate to "Portfolio" from the main menu
2. Your portfolio displays:
   - Personal information and achievements
   - Learning progress and skills
   - Certificate information
   - Recommended career roles

2. Sharing Your Portfolio

1. Click "Share Portfolio" button
2. Choose sharing method:
   - Copy link to clipboard
   - Share via social media
   - Send via email
3. Portfolio is publicly accessible via the shared link

3. Portfolio Features

- **Dynamic Content**: Updates automatically with your progress
- **Professional Layout**: Clean, employer-friendly design
- **Certificate ID**: Unique identifier for verification

- **Skills Showcase**: Displays learned technologies
- **Career Recommendations**: AI-suggested job roles

AI Career Mentor

1. Accessing AI Chat

1. Look for the floating AI chat button (bottom-right corner)
2. Click to open the chat interface
3. Start typing your question

2. Using AI Chat Effectively

- **Ask Specific Questions**: "How do I create a React component?"
- **Request Code Examples**: "Show me a JavaScript function example"
- **Get Career Advice**: "What skills should I focus on for web development?"
- **Clarify Concepts**: "Explain the difference between SQL and NoSQL"

3. AI Chat Features

- **Context-Aware**: Understands your learning progress
- **24/7 Availability**: Always ready to help
- **Learning-Focused**: Tailored to your career track
- **Safe Environment**: Monitored for appropriate content

Attendance and Engagement

1. Marking Attendance

1. Attendance is automatically tracked when you:
    - Log into the platform
    - Complete learning activities
    - Submit tests or exercises
2. Manual attendance marking available if needed

2. Viewing Attendance

1. Go to your dashboard
2. Check the attendance widget
3. View:
    - Current streak
    - Total days present
    - Attendance percentage
    - Monthly calendar view

3. Maintaining Streaks

- **Daily Engagement**: Log in and complete activities
- **Consistent Learning**: Regular progress through materials

- **Active Participation**: Submit assignments on time

Leaderboard and Gamification

1. Understanding Scores

Your leaderboard score is calculated based on:

- **Progress Score**: Completion of learning materials
- **Attendance Score**: Regular platform engagement
- **Consistency Score**: Steady learning pace
- **Time Score**: Efficient learning habits

2. Viewing Rankings

1. Access leaderboard from dashboard
2. See your current rank
3. Compare with peers in your career track
4. View top performers

3. Improving Your Rank

- **Complete Materials**: Finish all learning content
- **Maintain Attendance**: Regular platform engagement
- **Submit Quality Work**: High-scoring tests and exercises
- **Stay Consistent**: Regular learning schedule

👨‍🏫 Staff Guide

Dashboard Overview

Staff dashboard provides:

- **Student Overview**: Total students and active learners
- **Progress Analytics**: Completion rates and trends
- **Recent Activity**: Latest student submissions
- **Quick Actions**: Common administrative tasks

Student Management

1. Viewing Student List

1. Navigate to "Students" from the main menu
2. Use filters to find specific students:
    - Search by name or email
    - Filter by career track
    - Filter by status (active/inactive)
    - Sort by various criteria

2. Student Details

1. Click on any student to view details
2. Access comprehensive information:
    - Personal information
    - Learning progress
    - Attendance records
    - Portfolio data
    - Activity timeline

3. Student Progress Monitoring

1. **Learning Journey View**:
    - Visual timeline of student progress
    - Section-by-section completion status
    - Time spent on each activity
    - Test scores and attempts
2. **Progress Analytics**:
    - Overall completion percentage
    - Level-by-level progress
    - Time investment analysis
    - Performance trends

4. Portfolio Review

1. Access student portfolios from student details
2. Review:
    - Learning achievements
    - Skills development
    - Certificate information
    - Career readiness

Content Review and Feedback

1. Reviewing Test Submissions

1. Navigate to student details
2. Go to test section
3. Review:
    - Student answers
    - Score achieved
    - Time taken
    - Number of attempts

2. Reviewing Exercise Submissions

1. Access exercise submissions
2. Review submitted materials:
    - Code files
    - Documentation
    - External links
    - Project descriptions
3. **Providing Feedback**:
    - Add comments and suggestions
    - Approve or request revisions
    - Assign scores
    - Provide encouragement

3. Managing Submissions

- **Approval Process**: Review and approve quality work
- **Revision Requests**: Ask for improvements when needed
- **Score Assignment**: Provide fair and constructive scoring
- **Progress Tracking**: Monitor improvement over time

Analytics and Reporting

1. Student Analytics

1. Access analytics dashboard
2. View metrics:
    - Overall completion rates
    - Average progress by track
    - Attendance statistics
    - Performance trends

2. Track Performance

1. Compare performance across career tracks
2. Identify:
    - High-performing students
    - Students needing support
    - Content effectiveness
    - Learning patterns

3. Generating Reports

1. Use built-in reporting tools
2. Export data for:
    - Progress reports
    - Attendance summaries

- Performance analytics
- Custom analysis

Communication and Support

1. Student Support

- **Progress Monitoring**: Identify struggling students
- **Intervention**: Provide additional support when needed
- **Encouragement**: Recognize achievements and milestones
- **Guidance**: Offer career and learning advice

2. Content Feedback

- **Material Quality**: Report issues with learning content
- **Improvement Suggestions**: Recommend content enhancements
- **Student Feedback**: Collect and relay student concerns
- **Curriculum Updates**: Suggest curriculum improvements

🔧 Admin Guide

System Administration

1. User Management

1. **Creating Users**:
   - Navigate to "Users" section
   - Click "Add User"
   - Fill in user details
   - Assign appropriate role
   - Set initial password
2. **Managing User Roles**:
   - **Students**: Learning platform access
   - **Staff**: Student management and review access
   - **Admins**: Full system access
3. **User Maintenance**:
   - Update user information
   - Reset passwords
   - Deactivate/reactivate accounts
   - Monitor user activity

2. Curriculum Management

1. **Creating Learning Levels**:

- Navigate to "Curriculum" section
- Click "Add Level"
- Configure level details:
  - Title and description
  - Career track assignment
  - Difficulty level
  - Estimated duration
  - Prerequisites

2. **Content Management**:

- **Learn Content**: Add reading materials, videos, tutorials
- **Test Questions**: Create quizzes and assessments
- **Exercises**: Design hands-on projects
- **Resources**: Provide external learning links

3. **Content Organization**:

- Set content order and sequence
- Group related materials
- Create learning paths
- Update existing content

3. System Configuration

1. **Platform Settings**:

- Configure system-wide options
- Set attendance policies
- Configure test retake policies
- Manage feature toggles

2. **AI Integration**:

- Configure Gemini API settings
- Set AI chat parameters
- Monitor AI usage and costs
- Update AI prompts and responses

3. **Security Settings**:

- Configure authentication options
- Set password policies
- Manage session timeouts
- Configure access controls

Analytics and Reporting

1. System Analytics

1. **User Analytics**:
    - Total user counts
    - Active user statistics
    - User engagement metrics
    - Growth trends
2. **Learning Analytics**:
    - Completion rates by track
    - Average learning times
    - Popular content identification
    - Performance benchmarks
3. **Platform Performance**:
    - System uptime and reliability
    - Response time metrics
    - Error rates and issues
    - Resource utilization

2. Custom Reports

1. **Report Generation**:
    - Create custom report templates
    - Schedule automated reports
    - Export data in various formats
    - Share reports with stakeholders
2. **Data Export**:
    - Export user data
    - Export learning progress
    - Export analytics data
    - Maintain data privacy compliance

Maintenance and Updates

1. System Maintenance

1. **Regular Maintenance**:
    - Monitor system health
    - Update dependencies
    - Backup data regularly
    - Performance optimization
2. **Content Updates**:
    - Review and update learning materials

- Refresh outdated content
- Add new learning resources
- Improve existing content

2. User Support

1. **Technical Support**:
   - Resolve user issues
   - Provide system training
   - Maintain documentation
   - Handle feature requests
2. **Training and Onboarding**:
   - Train new staff members
   - Create user guides
   - Conduct system demonstrations
   - Provide ongoing support

🔄 Common Features

Profile Management

1. Updating Profile Information

1. Navigate to "Profile" from the main menu
2. Edit available fields:
   - Personal information
   - Contact details
   - Educational background
   - Career preferences
3. **Save Changes**:
   - Click "Save" to update profile
   - Changes reflect immediately
   - Profile updates affect portfolio

2. Password Management

1. Go to profile settings
2. Click "Change Password"
3. Enter current and new passwords
4. Confirm password change

Notifications and Alerts

1. System Notifications

- **Test Results**: Immediate feedback on test completion
- **Exercise Feedback**: Notifications when staff reviews submissions
- **Progress Updates**: Milestone and achievement notifications
- **System Announcements**: Important platform updates

2. Email Notifications

- **Account Updates**: Password changes and security alerts
- **Progress Reports**: Weekly or monthly progress summaries
- **Deadline Reminders**: Upcoming assignment deadlines
- **Achievement Notifications**: Badge and milestone celebrations

Search and Navigation

1. Global Search

- Search across all content types
- Find specific learning materials
- Locate user information (staff/admin)
- Quick access to features

2. Navigation Tips

- **Breadcrumbs**: Track your location in the system
- **Quick Links**: Access frequently used features
- **Keyboard Shortcuts**: Speed up common tasks
- **Mobile Navigation**: Optimized for mobile devices

File Management

1. Uploading Files

1. **Supported Formats**:
    - Documents: PDF, DOC, DOCX
    - Images: JPG, PNG, GIF
    - Code: ZIP, RAR archives
    - Videos: MP4, AVI (if enabled)
2. **Upload Process**:
    - Click upload button
    - Select files from device
    - Wait for upload completion
    - Verify file accessibility

2. File Organization

- Files are automatically organized by user and activity
- Access files through activity history
- Download files for offline review
- Share files with staff when needed

🔧 Troubleshooting

Common Issues

1. Login Problems

Issue: Cannot log in to the platform **Solutions**:

- Verify email and password are correct
- Check for caps lock or typing errors
- Clear browser cache and cookies
- Try different browser or incognito mode
- Contact support if password reset doesn't work

2. Progress Not Saving

Issue: Learning progress not being recorded **Solutions**:

- Ensure stable internet connection
- Refresh the page and try again
- Check if browser allows cookies
- Verify you're logged in properly
- Contact support if issue persists

3. File Upload Issues

Issue: Cannot upload files for exercises **Solutions**:

- Check file size limits (usually 10MB)
- Verify file format is supported
- Ensure stable internet connection
- Try uploading one file at a time
- Contact support for large file uploads

4. Test Submission Problems

Issue: Cannot submit test answers **Solutions**:

- Ensure all questions are answered
- Check internet connection
- Refresh page and try again
- Verify test hasn't expired
- Contact support if submission fails

5. Portfolio Not Updating

Issue: Portfolio shows outdated information **Solutions**:

- Wait a few minutes for updates to process
- Refresh the portfolio page
- Check if profile information is complete
- Verify learning progress is being recorded
- Contact support if updates don't appear

Browser-Specific Issues

Chrome

- Clear browsing data regularly
- Disable extensions that might interfere
- Update to latest version
- Check JavaScript is enabled

Firefox

- Clear cache and cookies
- Disable tracking protection temporarily
- Update to latest version
- Check pop-up blocker settings

Safari

- Clear website data
- Disable content blockers
- Update to latest version
- Check privacy settings

Edge

- Clear browsing data
- Disable tracking prevention
- Update to latest version
- Check security settings

Mobile Device Issues

iOS (Safari)

- Update to latest iOS version
- Clear Safari data
- Check JavaScript settings
- Ensure stable internet connection

Android (Chrome)

- Update Chrome browser
- Clear app data
- Check internet permissions
- Restart device if needed

❓ FAQ

General Questions

Q: How do I reset my password? A: Click "Forgot Password" on the login page, enter your email, and follow the instructions in the reset email.

Q: Can I change my career track after starting? A: Contact your administrator or support team to discuss career track changes.

Q: Is there a mobile app available? A: The platform is fully responsive and works on mobile browsers. No separate app is required.

Q: How often is my progress saved? A: Progress is saved automatically as you complete activities. Manual saves are not required.

Learning Questions

Q: Can I retake tests? A: Retake policies vary by test. Check the test instructions for specific retake rules.

Q: How long do I have to complete exercises? A: Exercise deadlines are set by your institution. Check with your staff or admin for specific timelines.

Q: What happens if I fail a test? A: Depending on the retake policy, you may be able to retake the test or may need to review materials and try again.

Q: Can I access learning materials offline? A: Currently, all materials require an internet connection. Download features may be available for specific content.

Technical Questions

Q: What browsers are supported? A: Chrome 90+, Firefox 88+, Safari 14+, and Edge 90+ are fully supported.

Q: Why is the platform slow? A: Check your internet connection, clear browser cache, or try a different browser. Contact support if issues persist.

Q: Can I use the platform on multiple devices? A: Yes, you can access your account from any supported device with your login credentials.

Q: How do I report a bug or issue? A: Contact your support team or use the feedback feature in the platform.

Privacy and Security

Q: Is my data secure? A: Yes, we use industry-standard security measures to protect your data and privacy.

Q: Who can see my progress? A: Your progress is visible to you, your assigned staff, and administrators as needed for educational purposes.

Q: Can I delete my account? A: Contact your administrator to discuss account deletion and data retention policies.

Q: How is my portfolio data used? A: Portfolio data is used to showcase your learning achievements and may be shared with potential employers with your consent.

User Manual Version: v1.0
Last Updated: September 2025 **For Platform Version**: Syncner v1.0
